Method No. 1:

Upon the conclusion of packing and sealing a container and using calibrated and certified equipment, the shipper may weigh, or have arranged that a third party weigh, the packed container.

Method No. 2:

The shipper (or, by arrangement of the shipper, a third party) may weigh all packages and cargo items, including the mass of pallets, dunnage and other packing and securing material to be packed in the container and the weight of all additional loading equipment e.g. dunnage and add the tare mass of the container to the sum of the single masses of the container's contents.

I / we declare that the above information is true and correct, further I/we agree to indemnify [International Trade Management Limited Partnership, ABN 98 752 278 466](#) for any liability in relation to this declaration and the accuracy of the data contained within for Bill of Lading, PRA Cartage Vehicle, Vessel Load Plan and all requirements related to Marine Order 42.
